

# All Saints Implementation Project

Project Organization Structure  
June 28, 2024

# Project Design Considerations

- ▶ There are 5 projects to be launched and coordinated from ELC PAP
- ▶ There are a set of 2 Policy projects which require Parish Oversight from only the Parish Council (Parish Unity and Needs Mitigation)
- ▶ There are a set of 3 Financial projects which require Joint Oversight from the Diocese and the Parish Finance Committee (Church Maintenance, Feasibility for New Church, and Fundraising for New Church)
- ▶ Due to the different oversight requirements, each set of projects needs to be structured to report differently
- ▶ For simplification and speed, existing church committee structures are the preferred model
